

Wiseco Piston and Bonneville Performance have joined forces to produce the long awaited 904cc Forged Big Bore Kit for the New Triumph Bonneville, America and Speedmaster. Complete with pistons, rings, wrist pins, circlips, sleeves and complete gasket set. This kit is of the highest quality and has undergone extensive dyno and real world testing.

**WISECO / BONNEVILLE
PERFORMANCE
904cc BIG BORE KIT**

When combined with the Stage Two Flat Slide 42mm Mikuni Carb Kit from Bonneville Performance the rear wheel HP is 72 at 6800 rpm. This translates to 85 HP at the crank. Peak torque is 62.5 ft/lbs at 4100 rpm at the rear wheel. This represents over a 40% increase in peak torque over a stock Bonneville! The above figures were achieved with relatively mild compression. Higher compression pistons are available.

**BONNEVILLE
PERFORMANCE
STAGE 2 CARB KIT**

The carburetor kit was specifically developed for the new Triumph Bonneville, Speedmaster and America. The kit is designed and manufactured exclusively for Bonneville Performance. It consists of twin 42mm HSR Mikunis flat slide pumpers (Jetted for your bike), CNC machined port matched billet manifolds, airbox adapters top and bottom braces. It also includes o-rings, throttle control rod for carbs, all fastners, and throttle cables. Choke assembly is included.

**Stage 2 Carb Kit
Shown on TBA / Speedmaster**

The billet pieces are all show quality polished. The carbs can also be ordered in matt or highly polished finish.

This is a bolt on kit! For the best performance we recommend an aftermarket tuned exhaust system. We have utilized the BUB exhaust systems while testing the performance of our carb kit.

**FINEST QUALITY PERFORMANCE
PARTS AND ACCESSORIES FOR THE
NEW TRIUMPH BONNEVILLE, AMERICA
AND SPEEDMASTER!**

**Nicki Lane
Two Time Winner Miss Great Britain**

Tired of the erratic idle speed, sluggish response and the general unpredictable behavior of your stock CV's?

The combination of the **STAGE 2** and the **WISECO BIG BORE KIT** will make your new TRIUMPH come alive with PERFORMANCE. These kits are your answer to a rock solid performer!
